

# QALNERVO-PG Tablet

## *Advanced Neuropathic Pain Management*

**Target nerve pain. Support nerve repair. Restore quality of life.**

## Product Overview

QALNERVO-PG Tablet is a combination therapy indicated for the treatment of neuropathic pain. It works by modulating calcium channels in nerve cells to reduce the release of pain-related neurotransmitters. Additionally, it promotes nerve regeneration and protects against further nerve damage through a scientifically backed blend of neuro-supportive vitamins and antioxidants.
